The CHLK Belt combines advanced load carriage, all-day comfort, and integrated load-rated capability into a lightweight two-piece belt system. Built for military, law enforcement, aviation, maritime, and specialized professional users, the CHLK Belt delivers the stability of a modern duty belt with the capability of a load-rated MOLLE battle belt.

Featuring a lightweight composite frame, MOLLEminus attachment platform, ergonomic curved design, and integral tether points, the CHLK Belt provides mission-critical capability without unnecessary bulk.
