

DRYOUT® 1L

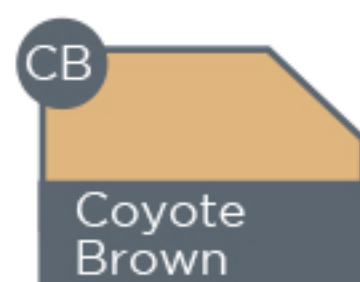

PRODUCT SPECIFICATIONS

DRYOUT® 1L

Weight	114 Grams
Size	1 Liter - W 5" x H 7" x D 3"
Part #	P-DRYOUT-01-XX
SKU	126300_CB

MATERIALS

DRYOUT® Patented Material Sandwich
2 oz Ripstop Nylon
TEX 70 Bonded Nylon Thread
ITW Fastex Side-Release Buckle

Protect night vision devices, optics, phones, GPS units, and other sensitive electronics from trapped moisture during transport and storage. The reusable DRYOUT 1L actively pulls moisture away from gear without batteries or external power.

Rain, sweat, humidity, and condensation trapped inside pouches and cases can lead to fogging, corrosion, mold, and equipment failure. DRYOUT's patented material absorbs and locks away moisture before it causes damage.

Sized for individual mission-critical equipment, the 1L fits easily into pouches, packs, range bags, and hard cases. Unlike passive desiccant packs, DRYOUT actively removes moisture and can be reset for repeated use.

FEATURES

- Sized for individual electronics and optics
- Actively pulls moisture away from sensitive equipment
- Supports preventative use and post-exposure recovery
- Helps reduce moisture-related issues such as fogging and corrosion
- Reusable and resettable for repeated use
- Requires no batteries or external power
- Compact enough for pouches, packs, cases, and vehicle kits
