The FORM Belt combines everyday comfort with the rigidity needed to support concealed-carry holsters, spare magazines, flashlights, and other essential equipment. Its anatomically curved 32° design follows the natural contour of the waist and hips for a more comfortable fit during extended wear. Constructed with ULTRACOMP laminate, a reinforced thermoplastic composite core, and a neoprene comfort lining, the FORM Belt creates a stable, low-profile carry platform without the bulk or tactical appearance of a traditional duty belt. The removable nickel-plated buckle maintains a clean everyday appearance while allowing future buckle customization.

## FEATURES

- Purpose-Built for CCW & EDC
- Anatomically Curved 32° Design
- Rigid Holster Support
- Neoprene Comfort Lining
- Low-Profile Everyday Styling
- Removable Buckle
- Made in USA
