The GRID Belt combines lightweight construction, exceptional comfort, and mission-ready load carriage into a streamlined battle belt platform. It is used and trusted by military personnel, law enforcement officers, firearms instructors, as well as serious end users.

Trusted by military personnel, law enforcement officers, firearms instructors, and professional end users who require a stable, reliable battle belt platform for real-world use.

Built using Blue Force Gear's MOLLEminus technology, rigid composite frame, and anatomically curved design, the GRID Belt provides a stable platform for holsters, magazine pouches, medical equipment, communications devices, and mission-essential gear without unnecessary weight or bulk.

FEATURES

- Lightweight 12.5 oz design
- Full MOLLE and MOLLEminus® compatibility
- Anatomically curved 32° design
- Two-Piece Belt System
- Rigid composite frame for enhanced load support
- Compatible with Helium Whisper®, MOLLE, and belt-mounted accessories
- Multiple buckle options available
- Made in the USA
