CERTIFICATION INFORMATION, AND
ORDERING**

The patented Blue Force Gear Integrated Stealth Harness combines a combat gun belt, rotary-wing restraint system, and certified Type C sit harness in one lightweight platform. Carry your mission equipment on the ground, then deploy the leg loops when the mission goes vertical. No belt change. No separate harness buried in a pack.

One System. Three Critical Roles.

- Combat Gun Belt
- Rotary-Wing Restraint
- Certified Type C Sit Harness

Key Features

- Built around the curved architecture of the BFG® CHLK® Belt
- Low-profile MOLLEminus® platform for holsters, pouches, and mission equipment
- Removable leg loops can remain attached and staged for rapid deployment
- Certified front and rear attachment points
- Complete system weighs only 1 lb 9 oz
- Berry Compliant and Made in USA
