

MARCO® HR

Built for speed, simplicity, and control under pressure, the MARCO HR streamlines chemlight deployment for low-light and night vision operations. Expanding on Blue Force Gear’s proven magazine-style dispenser architecture, a category-defining design trusted by professionals worldwide, the MARCO HR carries and rapidly deploys thirty 2” chemlight sticks with controlled, single-handed operation while simultaneously activating each chemlight in one fluid motion.

Constructed from rugged injection-molded nylon, the MARCO HR is lightweight, compact, and built for professional use in demanding operational environments. Designed to support rapid room marking, firing line identification, and target marking, the system delivers low-signature illumination without unnecessary movement or added preparation time.

As the innovator and industry leader in rapid chemlight deployment systems, Blue Force Gear continues to refine mission-driven solutions that enhance efficiency, reduce complexity, and support end users operating in high-stress environments.

PRODUCT SPECIFICATIONS

Weight	4.0 Oz
Size	6” (H) x 2.75” (W) x 2” (D)
Part #	MARCO-HR-1EA-BK
SKU	532400
Features	
One-Handed, Rapid Deployment	
30-Round Capacity	
Magazine-Style Dispenser Design	
Materials	
Extruded nylon	
Polycarbonate body	

Colors	
	MARCO-02-BL-1EA
	MARCO-02-GREEN-1EA
	MARCO-02-IR-1EA
	MARCO-02-RED-1EA
	MARCO-02-WH-1EA

*Marco light refill sold separately.

**Accessories not included
